Gauge: 30 sc* 33 rnds = 4" (10cm). Always use a crochet hook size that will result in the correct gauge after blocking.

If the size of the sole when crocheting you get more than you need, then crochet tighter or use a hook 0.25-0.5 mm smaller.

Tape and shoe displays

HOOK AND LOOP TAPE

I use dots diameter 6 mm/ 0.24" and regular hook-and-loop tape.

BABY SHOE DISPLAYS

I use baby shoe displays for all my booties:

- Ø It is very convenient to try on booties while crocheting.
- Ø Helps to achieve the right size.
- Ø Used to dry the finished items after washing to maintain the shape of the booties.
