Before you begin

Both elves use the same basic arms, legs, body and head. Follow the boy's overalls and scarf or the girl's skirt and hair after making the shared pieces.

The leg and arm chains are threaded through the body, then finished with wooden beads and knots. Keep the original placement photographs beside the assembly instructions.

The hair requires 20 pieces of 20 cm, totalling 4 m. The source calls this approximately 4 yards (4 m); those original approximate units are retained in the materials.
